## CAREER SUMMARY

I am an enthusiastic and motivated individual with a strong commitment to completing assigned tasks and a 'can-do' attitude. I thrive on embracing new challenges and am always eager to learn. Currently, I am actively seeking an opportunity with an IT company as a Node.js React.js or MERN Stack developer, where I can apply my skills effectively.

---

## EXPERIENCE

Fusion Startup Engineering Studio II Nova Pakistan, Islamabad

Feb 2022 - Feb 2024

### MERN Stack Developer

- Working with Node.js and React-based applications and taking care of the UI using Bootstrap and Sass for an enhanced user experience.
- Utilizing JIRA for agile software project management, including following SCRUM ceremonies such as sprint planning, daily standup, sprint review, and retrospectives.
- Implementing Bitbucket pipelines for integrated CI/CD.
- Leveraging SonarCloud for quality analysis, ensuring projects are production-ready.
- Utilizing Amplitude Analytics to store and analyze client journeys.
- Helping with .NET medium-level tasks if a team member is absent.
