MERN Stack Developer

Experienced Full Stack Software Engineer with 3 years of professional expertise, focusing on robust web application development using the MERN stack. Proficient in both frontend and back-end development, API creation, integration, and optimizing high-performance applications. Recognized for a proactive approach to learning new technologies. Ready to contribute my expertise and drive success in dynamic development environments.

EXPERIENCE

Fusion Startup Engineering Studio Pvt Ltd • Liverpool, United Kingdom • 03/2023 – 02/2024 Software Engineer | MERN STACK

- Employ JIRA for agile software project management and Git for version control.
- Implement Bitbucket pipelines for integrated CI/CD.
- Conduct unit testing and end-to-end testing (E2E) using React Testing Library, Puppeteer, and Jest.
- Leverage Amplitude Analytics to store and analyze client journeys.
- Develop reusable, testable, and efficient code. Design web and mobile UIs with React.js based on Figma and XD designs.

Nova Pakistan • Liverpool, United Kingdom • 02/2022 – 03/2023 Software Engineer | MERN STACK

- Designed and developed web applications using Node.js, Express.js, Firebase, Git/GitHub, React.js, MongoDB, and MySQL.
- Translated Figma and XD design mockups into pixel-perfect and responsive applications.
- Implemented unit testing and API testing using JavaScript testing libraries (Jest, React Testing Library, etc.).
- Utilized JIRA for agile software project management and Git for version control.
- Leveraged SonarCloud for quality analysis, ensuring projects are production-ready.

Accrual Group Limited • Rawalpindi, Pakistan • 01/2021 – 01/2022 Software Engineer | MERN STACK

- Converting Figma designs into React Components.
- Identifying and fixing bugs that are found within the code.
- Developed web applications utilizing Node.js, Express.js, Bootstrap, React.js, MongoDB and MySQL.
- Collaborated with clients to define project requirements and delivered solutions according to their needs.
- Writing unit tests
- Consuming APIs on the client site using ReactJs

SKILLS

Backend Node.js, Express.js, Socket.io, Mongoose ODM, Sequelize ORM, Webhooks, Docker, GraphQL, Microservices, Codelgniter, PHP

Frontend HTML5, CSS, SASS, React, Bootstrap, Material UI, Tailwind CSS, Next.js, Redux/RTK, Jest, React Testing library

Tools & Techs sonarcloud, graylog, bitbucket pipelines, amplitude

Cloud Services AWS (S3 Bucket), SES AWS ECR

Databases MySql, MongoDB, Firebase DB

Version Control Git, GitHub, GitLab, Bitbucket

PROJECTS

Appruvr • [Link](#) • 03/2023 – 02/2024

Fusion Startup Engineering Studio

- Appruvr simplifies credential sharing between learning providers, candidates, and employers. Appruvr improves the recruitment journey for employers, institutions, and candidates.

Swished Rental • [Link](#) • 05/2022 – 02/2023

Nova Pakistan

- A C2C rental platform, to give everyone an affordable and sustainable alternative to fast fashion.

Little Stories • [Link](#) • 11/2021 – 01/2022

AccrualGroup Ltd

- A MERN stack app designed to assist school teachers in generating AI-based stories for primary school students.

EDUCATION

Bachelor's in Computer Science

Virtual University of Pakistan • Lahore, Pakistan • 01/2018 – 01/2021

Final Year Project: Developed an intercity carpooling application utilizing PHP and the CodeIgniter framework, integrated with a MySQL database.

CERTIFICATIONS

Advanced React By Meta • 09/2023

Coursera
